At Green Inspiration we listen to ensure that we know the needs of our customer and take great care in personalising our service for you. Not only do we provide on-call responsive service but we keep you informed on how the service is progressing, without you having to lift a finger!

We like to make our service as effortless as possible, which includes scheduled maintenance with your own personal technician. How many times has a tradesman not shown up for an appointment or just shows up with no appointment - not with Green Inspiration. We organise in advance our service time and turn up on time every time! We appreciate that our customers are busy and that they need to have stunning plants all the time without having to think about their maintenance.

In depth training of our technicians is essential at Green Inspiration, to maintain the highest quality of plants. All of our technicians have undergone extensive training and experience which ensures the very high quality of our service.

We offer flexibility within our service to ensure you receive the personalised service you require. Our flexible hiring arrangements include:

- Hire/Service (plants hired and service provided)
- Purchase/Service (plants purchased and service provided) or
- Service only (plants owned by you and service provided)

(All options can be serviced weekly or fortnightly)

To allow maximum flexibility our contracts are always less than 12 months, unless otherwise requested.

We offer the complete range of plants and pots(containers) and our regular maintenance service encompasses all aspects of Indoor Plant Maintenance. This includes watering, cleaning, pest control, pruning, fertilising and rotation of plants to maintain a superb quality at all times.

Our service processes minimise water useage by adding precise measurements of water each service, thus minimising evaporation loss, and low water useage plants are selected wherever possible. As water is a scarce and valuable resource, Green Inspiration is very conscious to minimise its use.

You will experience our superb service from the initial design meeting right through to the invoicing and payment arrangements. We leave no stone unturned to ensure that every aspect of our service is as flexible and effortless for you as possible - a service we hope is as inspirational for you as it is for us!
